

Dear Registered speakers of WLF5,

Thanks for your speaker registration to WLF5.

Until today, 495 speakers were registered. We noticed the 165 authors have selected the thematic issue of Landslides and 149 authors have selected full color books. Thematic issue of Landslides is NOT special issue. Review process is completely same with the regular issue.

WLF5 thematic issue has categories of Review papers, Original papers, Recent Landslides and Technical Notes same as the regular issue.

The deadline of thematic issue was changed to **31 December 2019**.

The deadline of full color book was changed to **31 January 2020**.

Reason:

1. Papers rejected from the thematic issue can be resubmitted to full color books.
2. We will make the programme of WLF5 in April 2020.

Keynote lectures (20 minutes) in some sessions will be selected from the authors of accepted papers in the thematic issue. All authors of accepted papers in the thematic issue will be invited speakers (20 minutes) in some sessions or an independent session for thematic papers.

Call for papers in student session.

We will select student awards for student speakers in student session. All papers will be published in Vol.5 Education and Capacity Development for Risk Management and Risk Governance. Please encourage your supervising students to submit papers for Theme 5 (Volume 5), Matjaz Mikos <matjaz.mikos@gmail.com>

Please refer the Schedule, Theme/Volumes of WLF5 from a planned article in Backmatters of Vol.16-10: [WLF5 Outline in Backmatters \(Vol.16-10\)](#)

Submission WEB for thematic issue:

Submission WEB for full color book:

<https://www.editorialmanager.com/wlfo/default.aspx>

I and all organizing committee appreciate your speaker registration. It is very much helpful for the effective organization of WLF5.

Looking forward to receiving your paper and welcoming you to Kyoto, 2020.

Kyoji Sassa

Forum Chair of WLF5
